METRO 100 QUINT LADDER

POWER, PERFORMANCE AND PRECISION IN ONE PACKAGE.

The Metro 100 Quint is a single rear-axle aerial with 100' of vertical reach and up to 92' of horizontal reach with a pump, tank and hose bed. The crisscross, underslung outrigger spread of only 11' allows for setup in tight locations.

Once on scene, the Metro 100 Quint is equipped to get the job done with a mid-ship pump rated up to 2,000 GPM and a 300- to 500-gallon water tank. The extruded aluminum body has a SideStacker™ hose bed, loads of compartmentation and enclosed tunnels holding up to 127' of ground ladders. This versatile machine is available with the HR 100, LTH 100 or 110 aerial to meet department requirements.

EXTRUDED ALUMINUM AERIAL.

The Metro 100 Quint is equipped with the HR 100 welded, extruded aluminum aerial as standard, featuring integral nonslip rungs and tall handrails for safe and secure climbing. Aluminum aerials provide a low total cost of ownership since they will never rust, need repainting or have rubber rung covers replaced. The Metro 100 Quint is also available with the 110' ladder for added reach, or the LTH 100 for reduced travel height.

SPECIFICATIONS

VERTICAL REACH	100'
HORIZONTAL REACH	92'
TIP LOAD	500 lb. tip load wet or dry (HR 100 ladder)
WATERWAY	Up to 1,500 GPM flow
OUTRIGGERS	Crisscross, underslung outriggers with 11' spread
AERIAL CONTROLS	AACS with options for pump panel, tip and wireless controls; direct hydraulic also available
CAB	Typhoon® or Cyclone® cabs in 58" or 67.5" length
WHEELBASE	235" (245" with 67.5" cab)
CHASSIS FRAME	Integral torque box design combines the chassis frame and aerial torque box
ENGINE	Cummins® engines up to 605 HP
BODY CONFIGURATION	Extruded aluminum body with SideStacker hose bed and raised rear perimeter; enclosed pump operator's panel and full-height, right front compartment available
GROUND LADDERS	Enclosed tunnel for Alco-Lite® or Duo-Safety® ladders; options for roof/wall ladders on aerial base and combo ladder on body
PUMP	Hale® or Waterous® up to 2,000 GPM
TANK	300 to 500 gallons

CRISSCROSS, UNDERSLUNG OUTRIGGERS

The Metro 100 Quint features crisscross, underslung outriggers with a spread of only 11'. The compact design can set up in tight conditions. Stowing below the body allows for additional compartmentation not possible with other outrigger designs.

EXTRUDED ALUMINUM BODY

Full-depth/full-height compartments provide abundant storage capacity. Short rear overhang with raised rear perimeter standard, providing excellent maneuverability. Options available for enclosed pump operator's panel and full-height right front compartment.

SIDESTACKER HOSE BED

The extruded aluminum body, featuring a SideStacker hose bed, can be reloaded without having to raise the aerial. Optional side doors allow access from ground level.
